

Fisher Traditional fires have been warming New Zealand homes for decades. Originally from Canada, the proven design features remain unchanged and will fit any décor.

- Heavy gauge steel construction and fire brick linings for safety and long life
- Two step top that has been engineered for efficiency and offers the bonus of a multi-level cook top
- Quick action door latches and single fingertip air control for easy operation
- Special air flow system that washes unwanted smoke from the glass door and helps prevent soot build-up
- Ash shelf to catch hot embers
- Water heating option available

## *Hammer*

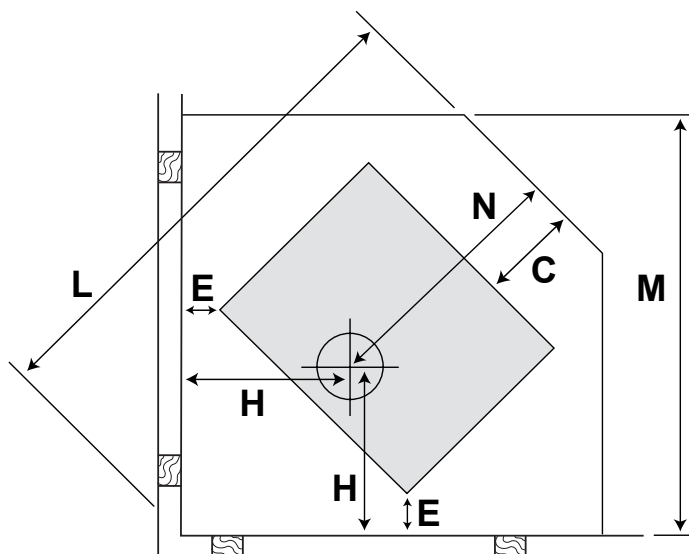

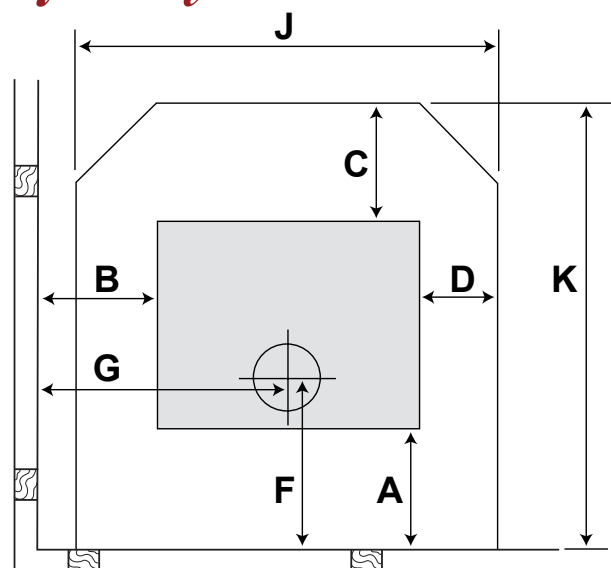

- Clean air wood burning fire
- Approximate heating area: 160–225m<sup>2</sup>
- Estimated peak heat output: 25kW
- Emissions: 0.83g/kg dry / 0.92g/kg with 2kW water booster
- Efficiency: 74% dry / 69% with 2kW water booster
- Max log length: 500mm
- NES\* and ECan\*\* approved
- 10 year firebox warranty
